

Recipient	Project	Purpose	Funding Amount
HopeSource	Housing for Veterans	To construct 12 units of affordable rental units dedicated to low-income senior veterans in Kittitas County.	\$1,616,279
Mary's Place Seattle	Mary's Place	To rebuild an aging emergency shelter to provide safe shelter and services for up to 70 families with children experiencing homelessness.	\$1,000,000
Housing Hope	Scriber Place Affordable Housing for Homeless Students	To construct 52 units of permanently affordable housing for families with children in the Edmonds School District who are experiencing homelessness.	\$1,500,000
City of Tacoma	Shelter Expansion and Site Preparation	To purchase 75 micro-shelter units to support individuals transitioning to permanent supportive housing, as well as the demolition and preparation of a long-term location for the micro-shelters.	\$850,000
Makah Indian Tribe	Duplex Housing for Essential Workers on the Makah Reservation	To construct six duplexes on the Makah Reservation for essential workers.	\$800,000
Habitat for Humanity of Clallam County	Brownfield Road Project	To construct infrastructure for 42 affordable workforce homes in Clallam County.	\$800,000
City of Bellevue	Digital Equity for Affordable Housing	To provide access to free high-speed internet to 600 affordable housing units and a homeless shelter.	\$500,000
U.S. Army Corps of Engineers	The Dalles Lock and Dam WA & OR	Tribal Village Development Plans	\$500,000
Astria Toppenish Hospital	Astria Toppenish Hospital Behavioral Health Program	To expand Astria Toppenish Hospital's civil commitment psychiatric unit.	\$2,750,000
City of Leavenworth	Ski Hill Dr Combined Sewer Separation	The City's combined sanitary sewer and stormwater system along the greater Ski Hill Drive corridor is at high risk for wastewater entering the stormwater system. Funding will be used to separate these systems, reducing the amount of unnecessary stormwater flow to the City's wastewater treatment plant.	\$1,800,000
Port of Mattawa	Port of Mattawa Wastewater	The project will provide upgrades to the wastewater system to provide for increased capacity and better treatment to allow for cleaner discharge water that can be used on crops while also recycling the wine and food processing waste in an environmentally sustainable manner.	\$2,250,000
Conf. Tribes and Bands of the Yakima Nation	Yakima Nation Drug and Fentanyl Taskforce	The Yakima Nation is requesting one-time funding for patrol officers to implement the Yakima Nation Drug and Fentanyl Taskforce.	\$1,028,000
Chelan Douglas Regional Port Authority	General Aviation Terminal Building Modernization, Pangborn Memorial Airport	To modernize the general aviation terminal at Pangborn Memorial Airport.	\$3,096,000
WSDOT	White Salmon Interstate Bridge Replacement -- Preliminary Engineering/Design	To provide funding for preliminary engineering and design for the replacement of the White Salmon Interstate Bridge.	\$4,000,000
WSDOT	Port of Warden Truck Access/Bypass Road Project	To support funding for an access/bypass road from Washington SR 170 to Port-owned industrial zoned properties in southwest Warden.	\$2,500,000
Confederated Tribes of the Colville Reservation	Nespelem Longhouse	Split space for cultural activities and emergency services or shelters.	\$100,000
Confederated Tribes of the Colville Reservation	Inchelium Community Water System Upgrade Project	The Inchelium Community Water System Upgrade Project will assist in updates to the town of Inchelium's public water infrastructure system, located on the Colville Reservation, to provide drinking water to the community, where the water quality needs to be improved for public health.	\$1,720,000
City of Ritzville	Ritzville Sewer Collection System Improvement Project	To replace and modernize the City of Ritzville's wastewater distribution network's infrastructure.	\$750,000
Town of Washtucna	Water Supply Project	The project will reduce the risk of contamination and water shortage by helping the town of Washtucna secure a clean drinking source.	\$965,000
City of Palouse	WWTP Nitrogen Reduction	This project provides design of treatment plant improvements that will bring the Palouse Wastewater Treatment Plant into regulatory compliance with their NPDES permit and the Palouse River TMDLs for temperature, nitrogen, pH, and DO, which will protect the water quality of the Palouse River.	\$1,096,835
Gonzaga University	School of Engineering & Applied Science -- Integrated Science and Engineering Facility	Funding requested by this application would provide needed state-of-the-art equipment to academic departments housed within the Bollier Center, to enable Gonzaga to expand its research and teaching capabilities through innovative, flexible spaces for students in high-demand fields.	\$1,847,000
Salish School of Spokane	Salish Cultural and Recreation Center	To complete construction of a Native language community	\$2,700,000
Spokane Tribe of Indians	Wellpinit Youth Center Rehabilitation and Children of the Sun Head Start Relocation	To rehabilitate the Wellpinit Youth Center to become a safe location for the Children of the Sun Head Start facility.	\$3,000,000
Spokane Airport Board	Aircraft Parking Apron Project, Spokane International Airport	To support funding for the expansion of an existing aircraft parking apron.	\$1,000,000
WSDOT	Adams County Canal Bridges	To fund the preliminary engineering of five (5) Adams County Bridges requiring reconstruction.	\$1,700,000
U.S. Army Corps of Engineers	Lake Washington Ship Canal	To provide construction funding for Lake Washington Ship Canal Small Lock Emergency Closure System	\$5,500,000
U.S. Army Corps of Engineers	Mud Mountain Dam -- Cascade Creek Slope Stability & Dam	To ensure the Corps can conduct critical construction work on Mud Mountain Dam including improvements to drainage of Cascade Creek	\$9,675,000
University of Washington	University of Washington Tidal-Powered Ocean Observations	To develop continuous, tidal powered ocean and coastal observation technologies to improve data collection quality, enhance port and harbor security, and reduce environmental impacts.	\$5,000,000
City of Seattle	South Park Drainage Improvements	Create a formal drainage system to address significant drainage and flooding issues in South Park.	\$3,000,000
City of Renton	Stormwater Quality Treatment and Infiltration Facility	To significantly enhance water quality while substantially reducing flood risks for a 245-acre sub-basin in the Renton Highlands.	\$959,752
Maritime Blue	Protecting Southern Resident Killer Whales from the Acoustic and Physical Impacts of Large Commercial Vessels.	To create quiet foraging habitat for endangered Southern Resident killer whales with minimal impact to the maritime trade of Washington state.	\$300,000
University of Washington	UW Advanced Nano & Quantum Systems	The University of Washington seeks to acquire four critical workhorse tools for carrying out research and product development at the Washington Nanofabrication Facility (WNF).	\$3,500,000
University of Washington	UW Molecular Analysis Facility (MAF) Instrumentation	The University seeks to acquire an X-ray photoelectron spectroscopy (XPS) instrument to quantify surface elements of samples and a Focused Ion Beam (FIB) instrument for site-specific imaging and etching of samples.	\$2,800,000
City of Bellevue	Bellevue Police Department Body-Worn Camera Program	To provide funding for the Bellevue Police Department's new body-worn camera program.	\$963,000
Cham Refugees Community	Cham Community Center	To construct a multipurpose Cham Community Center to provide a multigenerational service hub with holistic, culturally sensitive services	\$1,000,000
City of Federal Way	Downtown Civic & Community Space	To construct a civic and community center in downtown Federal Way to host events and services for community groups.	\$850,000
WSDOT	Airport Station Area Pedestrian Improvements	To complete construction funding for multimodal safety improvements in the City of SeaTac.	\$500,000
Indian American Community Services	IACS Community Center Improvement Project	To renovate the newly acquired IACS Community Center building in the Kent, WA.	\$2,200,000
Darrington Food Bank Foundation	Darrington Food Bank	Expansion of Darrington Food Bank's food storage facility and food distribution area.	\$425,100
City of Ferndale	Ferndale Civic Campus	New civic city hall for municipal court, council chambers, and community meeting space.	\$1,000,000
Northwest Innovation Resource Center	NWIRC Innovation Center Network -- SWIFT Center	To renovate, equip, and staff NWIRC's new Innovation Center in Sedro Woolley, Washington. This will provide space for entrepreneurs to receive supportive services and access manufacturing equipment.	\$850,000
Lake Whatcom Water & Sewer District	Division 7 Water Reservoir Replacement Project	The project replaces the existing reservoir with two appropriately sized reservoirs that meet current earthquake structural design standards, one of which would be outfitted with the ShakeAlert® early earthquake warning system that automatically closes valving in the event of an earthquake to preserve water supply.	\$220,000
City of Bothell	Woodcrest Community Water System Repair & Reconstruction	The purpose of this project is to bring the Woodcrest Community's utilities up to current requirements, provide improved service and fire flow, reduce utility repairs and maintenance, and reduce potential impacts to health and environment.	\$959,752
City of Granite Falls	Granite Falls WWTP Facility Upgrades	This WWTP upgrade project will support the vitally important objective of improving the water quality in the Pilchuck River watershed.	\$959,752
Whatcom County Sheriff Office	Rapid DNA System	For the Whatcom County Sheriff to purchase a rapid DNA system.	\$440,000
Snohomish County	Snohomish County Food and Farming Center	To create a Food and Farming Center in Snohomish County that will provide resources for the processing, aggregation, and distribution of locally produced agricultural products.	\$5,000,000
Island Transit	South Whidbey Transit Center Design-Build	To support planning, design, and construction of a new transit center on south Whidbey Island.	\$4,000,000
City of Mount Vernon	Mount Vernon Library Commons Project	To construct Mount Vernon Library Commons, including a children's center, a teen/young adult STEM center, a community technology center, and community meeting rooms.	\$3,000,000
WSDOT	Bradley Road Safety Improvements	To provide construction funding to construct Bradley Road Complete Street Improvements.	\$1,616,279
WSDOT	Everett Point Industrial Center (EPIC) Green Bridge Plan	To support the development of a corridor and bridge plan to establish a new access point for the Everett Point Industrial Center.	\$850,000
Stillaguamish Tribe	SR-530 & Smokey Point Blvd. Roundabout	To provide funding for the construction of a roundabout at the intersection of SR 530 and Smokey Point Boulevard.	\$500,000
Northwest Innovation Resource Center	NWIRC Innovation Center Network -- Arlington	To renovate, equip, and staff NWIRC's new Innovation Center in Arlington, Washington. This will provide space for entrepreneurs to receive supportive services and access manufacturing equipment.	\$500,000
U.S. Army Corps of Engineers	Tacoma Harbor	To continue preconstruction engineering and design for Tacoma Harbor navigation improvements.	\$1,900,000
City of Elma	City of Elma Community Policing and Emergency Operations Center	New police and an Emergency Operations Center.	\$1,288,000
Quinalt Indian Nation	Quinalt Boom Truck	Purchase of a boom truck.	\$135,000
Port Angeles Waterfront Center	Port Angeles Waterfront Center Field Hall	New community facility and auditorium.	\$1,000,000
Public Utility District No. 1 of Thurston County	Relocate Water Mainline -- Green Cove Creek Culvert	To construct a temporary water main for construction of a bridge and the subsequent construction of a permanent water line for the residents on the west side of Green Cove Creek.	\$875,000
University of Washington Tacoma	UW Tacoma Milgard Lab Equipment	UW Tacoma is requesting equipment for new Mechanical and Civil Engineering Labs in their new building to enable the spaces to be fully operational to accelerate expanding cohorts in these high demand programs.	\$2,500,000
City of Tacoma	Alternative Strategies to Address Public Safety	To provide personnel costs for the expansion of two alternative response programs to assist the Tacoma Police Department and improve public safety and community trust.	\$963,000
Multicultural Child and Family Hope Center	Cora Whitley Family Center	To construct the Cora Whitley Family Center, a childcare facility that will replace the Multicultural Child and Family Hope Center's current facility and add at least 100 childcare slots.	\$4,000,000
Lummi Nation Lummi Indian Business Council	Lummi Nation - Elevate Slater Rd	To complete funding to flood proof 1,900 linear feet of Slater Road by raising the roadbed by twelve feet.	\$8,000,000
WSDOT	College Street Corridor Safety Improvements	To support funding for multimodal safety improvements on the principal arterial through Lacey.	\$850,000
Makah Indian Tribe	Makah Passage Alternative Access Route	To provide funding for the creation of an alternative access and evacuation route on an existing primitive road for the Makah Indian Tribe.	\$3,700,000

City of Hoquiam	Hoquiam Drinking Water Supply Project	The purpose of the project is to provide a new, safe reliable drinking water source for the residents and businesses of Hoquiam, WA. New water wells will be drilled and upgrades to the existing water treatment plant will be added to treat the new ground water which will replace a surface water supply	\$500,000
Cowlitz County	Mt St. Helens Sediment Control	Provide the Corps with necessary resources to conduct Mt. St. Helens sediment monitoring activities on the Cowlitz and Toutle Rivers	\$180,000
Cowlitz County	Ryderwood Drought Resiliency	To construct a new raw water reservoir and required piping to serve the Ryderwood area of Cowlitz County and improve drought resiliency.	\$1,600,000
Shoalwater Bay Indian Tribe	Shoalwater Bay Indian Tribe Water/Wastewater System Study and Design	This funding is for a feasibility study, planning, and design of a water/wastewater treatment system that will support homes and government buildings in the Shoalwater Bay Indian Tribe's new location.	\$1,490,000
City of Washougal	Washougal Wastewater Treatment Plant Project	This project would help ensure access to a clean and affordable wastewater treatment for the residents of Washougal and protect the Columbia River and the Steigerwald National Wildlife Refuge immediately adjacent to the project.	\$959,757
PUD #1 of Wahkiakum County	Puget Island Water System Alternative	To improve system reliability by developing an alternate water source for Puget Island.	\$959,752
Skamania County Sheriff	Public Safety Radio Communication System Modernization	To fund the purchase of equipment for the upgrade and replacement of Skamania County's current public safety radio communication system.	\$963,000
WSDOT	Wind River Slide Reconstruction Project	To reconstruct and stabilize Wind River Road for freight, residential, and visitor traffic accessing Carson, Washington.	\$3,280,000
WSDOT	Heights Infrastructure Investment Project	To support funding for infrastructure elements necessary for the development of a new economic district in Vancouver.	\$4,000,000
Lower Columbia College	Lower Columbia College Vocational Equipment	Funding will be used for equipment and technology upgrades for vocational training in industries such as welding and machining.	\$1,000,000
WDFW	West Coast Whale Conservation Plan NEPA	To provide funding for NOAA or a contractor to conduct a NEPA review, analysis, and documentation required in order to approve and issue an Incidental Take Permit for reduced whale entanglements on the West Coast	\$2,000,000
	Total		\$138,581,258
